

COMPLETE PACKAGING SOLUTIONS

One Packaging Partner. Multiple Packaging Solutions.

Integrated packaging solutions across Corrugated Cartons, Rigid Plastic Containers, and Heavy-Duty Woven Packaging for growing commercial enterprises.

INTEGRATED PRODUCT ECOSYSTEM

CORRUGATED DIVISION

CORRUWAY™

Heavy-duty shipping boxes, regular slotted cartons, die-cut mailers & mono cartons.

3-Ply • 5-Ply • 7-Ply Kraft

RIGID PLASTICS DIVISION

PLASTWAY™

Closed handled HDPE edible oil jars, industrial canisters & crystal-clear PET bottles.

200ml to 20L • Food Grade

WOVEN & FABRIC DIVISION

WOVENWAY™

Heavy-duty PP woven grain sacks, BOPP laminated packaging & non-woven carry bags.

10kg to 100kg • Reusable

Engineered for Growing Commercial Enterprises

Topway Packaging brings multiple packaging categories under one reliable partner, helping businesses simplify sourcing, maintain consistent quality, and manage commercial-scale packaging efficiently.

COMPANY OVERVIEW & B2B POSITIONING

Packaging Solutions Built Around Your Business

Topway Packaging is a B2B packaging solutions company serving businesses with a diverse range of packaging products designed for commercial, industrial, and retail requirements.

Simplifying Packaging Procurement

Businesses often require different packaging products from different suppliers: corrugated boxes for shipping, rigid containers for liquid bottling, and woven sacks for bulk raw materials.

Instead of coordinating with multiple disconnected vendors, Topway brings major packaging categories together under one reliable partner, helping businesses simplify sourcing, maintain consistent quality, and streamline logistics.

Operational Hub in Jaipur, Rajasthan

Strategically located in RIICO Sitapura Industrial Area.

OUR METHODOLOGY

Our Practical 4-Stage Approach

01 — Understand Requirement

We analyze product characteristics, weight, storage conditions, transit hazards, and branding needs.

02 — Identify the Right Solution

Selecting optimal materials across corrugated flutes, virgin polymer grades, or woven fabric densities.

03 — Deliver Consistent Quality

Rigorous process control ensures dependable bursting strength, leak resistance, and dimensional accuracy.

04 — Build Long-Term Partnership

Committed to recurring commercial supply, dependable dispatch schedules, and continuous support.

Consistency-Driven Quality Focus

Strict testing for load bearing, leak protection & endurance.

Geographical Footprint & Growth

Initial focus: Jaipur → Rajasthan → India → International Markets.
Serving regional manufacturers and expanding capabilities for export-oriented enterprises.

Our Quality Philosophy: Consistency Matters

For commercial businesses, packaging quality directly affects product protection, transportation efficiency, storage safety, and brand perception. Our operational focus is on maintaining dependable consistency across recurring orders, avoiding exaggerated claims, and delivering tangible reliability.

Product Protection

Engineered for real-world transit hazards.

Logistical Fit

Standardized for pallet and container loading.

Brand Perception

Clean aesthetic and crisp branding finish.

Cost Efficiency

Right-sized materials avoiding over-packaging.

BRAND ARCHITECTURE & DIVISIONS

Three Focused Divisions. One Unified Packaging Partner.

Topway operates through three specialized packaging divisions, each dedicated to deep material expertise and manufacturing excellence under a unified B2B management umbrella.

TOPWAY PACKAGING — Umbrella Solutions Partner

Complete Packaging Solutions for Growing Businesses

Consolidating Corrugated, Rigid Plastic, and Flexible Woven packaging under unified quality control, synchronized billing, and single-source accountability.

CorruWay

CORRUGATED PACKAGING

Strength in Every Box.

Engineered corrugated packaging designed for structural protection, transit endurance, and commercial logistics.

Core Product Lines:

- Regular Slotted Cartons (RSC)
- Heavy-Duty Industrial Boxes (5/7 Ply)
- Die-Cut E-Commerce Shippers
- Printed Master Cartons
- Mono Cartons & Folding Boxes

Key Value Delivered:

High edge crush resistance, vertical stackability, and 100% recyclable kraft.

PlastWay

RIGID PLASTIC PACKAGING

Rigid Packaging. Built for Business.

Precision blow-molded containers and PET bottles engineered for liquid security, leak resistance, and shelf visibility.

Core Product Lines:

- Closed Handled HDPE Oil Jars
- HDPE Edible Oil Jars (1L - 20L)
- Food & Beverage PET Bottles
- Industrial Liquid Canisters
- Custom Neck & Closure Tooling

Key Value Delivered:

Zero-leak induction sealing, high ESCR polymer grades, and food safety compliance.

WovenWay

WOVEN & FABRIC PACKAGING

Flexible Packaging. Built to Perform.

High-tensile PP woven sacks and reusable non-woven bags for bulk handling, retail merchandising, and corporate branding.

Core Product Lines:

- PP Woven Sacks (10kg - 100kg)
- BOPP Multi-Color Printed Sacks
- Laminated Agricultural Sacks
- D-Cut & Loop Non-Woven Bags
- Ultrasonic Stitched Retail Totes

Key Value Delivered:

High tensile load durability, weather resistance, and reusable retail brand visibility.

SINGLE-SOURCE PROCUREMENT ADVANTAGE

Consolidate Your Entire Packaging Procurement Under Topway

Why manage five separate packaging vendors when Topway coordinates your primary containers (PlastWay), bulk transport sacks (WovenWay), and protective outer shipper cartons (CorruWay) under a single reliable supply framework with unified quality assurance?

✓ Single Vendor Invoice & PO

✓ Synchronized Delivery Schedules

✓ Standardized Quality Benchmarks

CORRUGATED PACKAGING DIVISION

CorruWay™ — Corrugated Boxes & Transit Systems

CorruWay delivers high-performance corrugated packaging engineered for transit endurance, warehouse stackability, and product protection across domestic and export supply chains.

CorruWay automated converting line & palletized shippers

Regular Slotted Cartons (RSC)

The industrial workhorse for warehousing and transit. Standard 3-ply and 5-ply construction with precision slotting for automated case erectors and tape sealing lines.

- **Standard Specifications:** 3-Ply & 5-Ply kraft options
- **High Stacking Strength:** Engineered Edge Crush Test (ECT)
- **Key Applications:** FMCG, food processing, pharmaceuticals

Heavy-Duty Industrial Shippers

Reinforced 5-ply and 7-ply heavy corrugated containers built for dense machinery components, automotive parts, and bulk export loads requiring maximum vertical compression resistance.

- **Multi-Wall Construction:** Double & Triple wall configurations
- **High Bursting Factor:** Virgin kraft liners up to 250+ GSM
- **Key Applications:** Automotive, industrial equipment, export cargo

Die-Cut E-Commerce Mailers

Precision die-cut presentation boxes featuring self-locking tabs, clean folds, and optional tear-strips for effortless unboxing aesthetics and transit protection.

- **Precision Fit:** Custom CAD die-lines matching product geometry
- **Unboxing Appeal:** Clean edges with crisp flexo printing
- **Key Applications:** D2C brands, apparel, electronics, cosmetics

Printed Master Cartons & Mono Cartons

Multi-color flexographic printing for bold brand visibility, barcodes, and handling graphics, alongside lightweight mono folding cartons for primary shelf display.

- **High-Definition Print:** Crisp 1 to 4 color flexographic branding
- **Structural Variety:** Tuck-in flaps, crash-lock bottoms, sleeves
- **Key Applications:** Consumer packaged goods, retail display

CorruWay Technical Capabilities & Quality Standards

MANUFACTURING PARAMETERS & RIGOROUS TESTING

Ply Options

3-Ply (Single Wall)
5-Ply (Double Wall)
7-Ply (Triple Wall)
Custom multi-wall builds

Kraft Liners

Virgin Craft (18-35 BF)
Test Kraft Liners
Semi-Chemical Medium
Recycled Eco-Kraft

Flute Profiles

B Flute (Flat crush)
C Flute (Cushioning)
E Flute (Microflute print)
BC/AB Combinations

Quality Testing

Edge Crush Test (ECT)
Bursting Strength (BS)
Box Compression (BCT)
Moisture & Drop Testing

RIGID PLASTIC PACKAGING DIVISION

PlastWay™ — Precision HDPE Jars & PET Bottles

PlastWay provides durable blow-molded HDPE containers and crystal-clear PET bottles designed for chemical compatibility, zero-leak transit, and brand shelf appeal.

**Handled HDPE Containers (Closed & Induction Sealed)****Food-Grade PET Bottles (Clear & Amber Formats)**

PRIMARY PRODUCT LINE

HDPE Oil Jars & Handled Containers (Edible Oil & Chemical Formats)

Precision extrusion blow-molded High-Density Polyethylene (HDPE) containers engineered specifically for liquid integrity, easy commercial handling, and high-impact transport. Formulated for edible oil brands, liquid condiments, and industrial chemical formulations.

- **Standard Capacities:** 1 Litre, 2 Litres, 5 Litres, 10 Litres, 15 Litres, 20 Litres.
- **Ergonomic Handles:** Molded-in top handle for effortless pouring & safe warehouse handling.
- **Leak-Proof Sealing:** Induction heat-seal wads (foil seal) and tamper-evident ratchet caps.
- **High ESCR Polymer:** Stress crack resistant virgin resin eliminating container panelling.
- **Food-Grade Compliance:** 100% virgin food contact certified for mustard, soy, and refined oils.
- **Custom Branding:** In-mould logo embossing and calibrated volume graduations.

LIQUID PACKAGING

Food & Beverage PET Bottles (Crystal-Clear Formats)

Injection-stretch blow-molded Polyethylene Terephthalate (PET) bottles combining glass-like optical clarity with lightweight, shatterproof durability. Engineered for high-speed filling lines and extended product shelf life.

- **Volume Options:** 200ml, 500ml, 1000ml (1L), 2000ml (2L) sizes.
- **Neck Standards:** 28mm PCO / 38mm neck with tamper-evident caps.
- **Clarity & Barrier:** High optical transparency with gas & moisture barrier.
- **Key Uses:** Edible oils, beverages, vinegar, syrups, and liquid FMCG.

PlastWay Custom Tooling & Manufacturing Capabilities

TAILORED BOTTLE & JAR PRODUCTION FOR COMMERCIAL BRANDS

Custom Mould Design

3D CAD modeling and dedicated mould fabrication for exclusive container designs matching your brand geometry.

Closure Compatibility

Standardized neck finishes engineered for induction seals, flip-top dispensers, tamper-evident rings, and pumps.

Color Masterbatches

Opaque white, jet black, natural translucent, industrial yellow, or custom brand-matched masterbatch formulations.

WOVEN & FABRIC PACKAGING DIVISION

WovenWay™ — Heavy-Duty Sacks & Non-Woven Bags

WovenWay covers both industrial PP woven sacks for heavy commodities and reusable non-woven carry bags for modern retail and commercial branding.

BULK & COMMODITY PACKAGING

Heavy-Duty PP Woven Sacks

Circular woven polypropylene sacks engineered for high-tensile strength, tear resistance, and rough transit environments across agricultural and industrial supply chains.

Product Configurations:

- **Plain PP Sacks:** Standard high-density weave for grain storage
- **Printed Sacks:** Up to 4-color crisp flexo branding & info
- **BOPP Laminated:** High-gloss photographic multi-color print
- **Lined Sacks:** Internal LDPE liner for moisture-sensitive goods
- **Load Ratings:** 10 kg, 25 kg, 50 kg, and 100 kg capacities

Key Applications:

Food grains (wheat, rice, pulses), animal feed, sugar, cement, fertilizers, chemicals, and bulk agricultural produce.

RETAIL & BRANDED BAGS

Customized Non-Woven Bags

Reusable, durable, and eco-friendly non-woven bags crafted from spunbond polypropylene fabric, designed to replace single-use plastics and showcase corporate brand identity.

Product Styles & Formats:

- **D-Cut Bags:** Clean die-cut handle for retail and shopping
- **Loop Handle Bags:** Comfortable soft-loop handles for groceries
- **Box-Type Bags:** Gusseted bottom & sides for upright storage
- **W-Cut / Grocery:** High-volume retail bags with side gussets
- **Tote & Stitched:** Heavy-duty ultrasonic welded corporate bags

Customization & Uses:

40 to 120+ GSM, custom color dyes, screen/flexo logo printing. Used by supermarkets, fashion apparel, corporate branding, and events.

WovenWay Value: Industrial Strength & Reusable Elegance

WovenWay delivers high performance across both extremes of flexible packaging: whether holding 50 kg of agricultural commodities for rough transit, or delivering a stylish reusable non-woven tote bag for retail shoppers.

High Tensile Endurance

Engineered warp and weft yarn strength prevents tearing and bursting under heavy bulk loads.

Weather & UV Stabilization

UV-stabilized polypropylene resin ensures durability during open storage and agricultural transport.

100% Recyclable Material

Both woven sacks and non-woven carry bags are 100% recyclable, supporting corporate sustainability.

VALUE PROPOSITION & CAPABILITIES

Why Growing Businesses Choose Topway Packaging

Topway Packaging combines multi-category manufacturing capabilities, rigorous consistency, and a customer-centric B2B relationship model.

01 — Multiple Packaging Categories

Corrugated boxes, rigid plastic bottles/jars, and woven sacks from one coordinated packaging partner.

02 — Customized Engineering

Packaging developed around specific product dimensions, volume, load requirements, and brand aesthetics.

03 — Dedicated B2B Focus

Designed for commercial-scale repeat orders, scheduled dispatches, and corporate procurement agreements.

04 — Reliable Supply Continuity

Dependable production schedules and buffer stock planning to eliminate supply chain disruptions.

05 — Long-Term Partnerships

Building recurring collaborative business relationships with transparent pricing and dedicated support.

06 — Simplified Procurement

Consolidate multiple packaging categories through a single point of accountability and synchronized logistics.

Industries We Serve Across Commercial & Industrial Sectors

Providing tailored packaging solutions engineered for industry-specific regulatory, transit, and handling requirements.

FMCG & Consumer Products

Secondary corrugated shippers, mono cartons, and branded carry bags.

Edible Oil & Food Processing

Closed handled HDPE oil jars, crystal-clear PET bottles, and outer cartons.

Agriculture & Food Grains

High-tensile PP woven sacks for wheat, rice, pulses, and animal feed.

Pharmaceuticals & Healthcare

Cleanroom PET bottles, induction tamper-evident seals, and protective boxes.

Textiles, Garments & Apparel

Export-grade corrugated cartons and customized non-woven shopping bags.

E-Commerce & Logistics

Self-locking die-cut mailer boxes and heavy-duty shipping containers.

Chemicals & Manufacturing

High-ESCR handled canisters and multi-ply lined bulk packaging sacks.

Modern Retail & Supermarkets

High-volume reusable non-woven shopping bags and promotional totes.

DEDICATED ACCOUNT MANAGEMENT

Built for Dependable Commercial Relationships

Topway Packaging assigns dedicated key account managers to oversee your orders across divisions. From technical drawing sign-off to scheduled dispatch and buffer inventory maintenance, our team ensures your packaging arrives on time, within specifications, and ready for your production lines.

✓ Single Point of Contact

✓ Scheduled Dispatches

✓ Buffer Inventory Planning

✓ Transparent B2B Pricing
